

WPT-I202 Wireless Smoke Detector Transmitter

The WPT-I202 is a 900MHz transmitter smoke detector, that is designed for wireless smoke and fire monitoring. The WPT-I202 can be programmed to send a unique code to a PageLink paging encoder, that as a result will initiate a detailed preprogrammed alphanumeric message to a specific pager or LED display.

- **Fully programmable messages**
- **Long range up to 1000'**
- **Low battery alert**
- **Long-life single battery**
- **Works in the 900MHz band**
- **Supervision option**

Specifications:

Dimensions: 5.5" diameter x 2.63"
Weight: 9.9 oz. (with battery)
Power: Single 3V Lithium battery
Operating Temperature: 40° - 100°F
Humidity: 0%-95% Non-condensing
RF Power: 10mW
Programming: PC based programming kit

Signalling Time: 1-4 seconds
Stability: Better than 5PPM
Frequency: 902-928MHz
Transmit format: Multi-Channel Spread Spectrum
Channel spacing: 100KHz
Paging addresses: One Device ID
Color: White
Limited Warranty: One-year Parts and Labor
